GENERAL RULES TARIFF 9000

ITEM 4005 HAZARDOUS MATERIALS; LOSS AND DAMAGE:

Hazardous Materials are defined as "Hazardous Wastes" and "Hazardous Substances" as named in Hazardous Materials Regulations of the U. S.

Department of Transportation in 40 Code of Federal Regulations (CFR) 260 through 263 and 49 CFR 171.8 or successor thereof.

Explosives are defined as Class A, B, and C Explosives as named in Part 172, Commodity List, Tariff Bureau of Explosives (BOE) 6000-Series.

Customers are required to accept delivery of carload traffic of Hazardous Materials within 48 hours after notice of arrival has been sent or given to the Consignee.

Customers that anticipate that they will not routinely be able to accept delivery in a timely fashion should make alternative arrangements for storage of cars.

Subscribing Carriers do not hold themselves out to provide storage of cars containing Hazardous Materials.

For the purpose of this Tariff, the term "Loss" shall mean any loss, injury, or damage which arises out of transloading, unloading and loading, transportation or disposition (including treatment, storage or disposal) of the Hazardous Materials, including, but not limited to, loss or damage to property (including, without limitation, the property of either of the Customer or Subscribing Carrier) or to natural resources; injury or death of any person or persons

(including, without limitation, employees of Subscribing Carrier); claims, liabilities, damages, fines or penalties; costs of containment, cleanup, response actions, removal actions, remedial actions, and health assessments, as these terms are defined by applicable federal, state or local laws and regulations; fees including, but not limited to, attorney, consultant, and expert witness fees; and costs of investigation.

For greater certainty but without limitation to the foregoing, the Subscribing Carrier's liability for any delay, loss or damage to Dangerous Goods to the exclusions, limits and defences set out in Item 1140 of this Tariff.

Customer hereby agrees to indemnify and hold harmless Subscribing Carrier, its officers, agents and employees, from and against any and all claims, demands, liabilities and lawsuits brought by any third party or governmental agency under any theory of law against Subscribing Carrier seeking to hold Subscribing Carrier liable for any Loss to the extent that the Loss is caused by Customer's act or omission, or act or omission of Customer's own Customer or contractor, Customer's violation of any law or regulation, Customer's failure to accept delivery, or Customer's breach of any other requirement including, but not limited to, Customer's failure to provide proper identification of the Hazardous Materials to be transported, whether or not Customer

GENERAL RULES TARIFF 9000

ITEM 4005 (continued)

relied on other parties for said identification, unless Subscribing Carrier's act or omission, violation of law or regulation, or breach of any requirement of this Tariff contributed to the Loss.

Notwithstanding any provisions in this Item 4005, Customer hereby agrees to indemnify and hold harmless Subscribing Carrier, its officers, agents, and employees from and against any claim for Loss, regardless of cause, resulting from an event that occurs subsequent to delivery to and acceptance of hazardous waste product by Customer, another rail carrier, or contractor, or other transporter designated by Customer, or an EPA licensed treatment, storage, or cleanup/disposal site operator designated by Customer.

Customer shall, regardless of the cause, be fully liable for and shall indemnify Subscribing Carrier, its officers, agents, and employees against any Loss to the extent and only to the extent that such Loss or any portion of such Loss is attributable to the release or spill of a hazardous material which is not identified on the bill of lading or manifest.

Customer shall indemnify and hold harmless Subscribing Carrier and the actual owners of equipment used hereunder from and against any and all liability for Loss resulting from future use of or exposure to the equipment where such Loss arises from Customer's failure or negligence in

inspecting and/or decontaminating equipment prior to release to Subscribing Carrier or delivering railroad or motor carrier.

Knowledge on the part of one party of any violation of any terms of this Tariff by the other party shall constitute neither negligence nor acquiescence in such violation, and shall in no event relieve either party of any of the responsibilities and indemnity obligations assumed in this Tariff.

References to Subscribing Carrier and Customer as used in this Tariff shall include the officers, agents and employees of Subscribing Carrier and Customer. Customer and Subscribing Carrier further agree that each and all of its indemnity commitments in this Tariff shall extend to and include the parent and all subsidiary and affiliated companies of Customer and Subscribing Carrier and their respective officers, agents and employees.

In the event of a conflict between provisions in this Item 4005 and the provisions contained in Item 4010 of this Tariff the provisions in Item 4010 shall govern.

GENERAL RULES TARIFF 9000

SECTION V: HEAVY WIDE DIMENSIONAL CLEARANCE PROCEDURES

GENERAL RULES TARIFF 9000

ITEM 5000 GENERAL INSTRUCTIONS:

These procedures establish instructions governing the movement of shipments in excess of Plate C dimensions and/or weighing in excess of 263,000 pounds. It applies to all Subscribing Carrier railroads and affiliates.

Shipments weighing in excess of 263,000 pounds require that the route over which the load is to move be checked prior to movement to determine if the roadbed and structures have sufficient capacity to safely carry the load at the timetable speed authorized for the route.

Shipments in excess of Plate C dimensions require that the route over which the load is to move be checked prior to movement to determine if there is sufficient horizontal and vertical clearance to pass the load. Movements of standard equipment with larger plate dimension on routes cleared for those plates are exempt from this clearance requirement.

The Subscribing Carrier General Manager, or designee, where the excess dimension / excess weight load will originate, terminate or traverse is the point of contact for initiating all required clearance files.

In the case of the loads originating on Subscribing Carrier, the Connecting Class I carrier is responsible for ensuring the clearance request is generated based

upon the customer's information. This clearance request must be provided to each railroad along the proposed route and the movement cannot be authorized until each clearance request is answered in the positive.

If the Customer has already established clearance procedures with another servicing road in the route, these procedures can continue to be used. The review and approval by the Clearance Bureau is still needed prior to movement.

In the case of loads terminating on or traversing over Subscribing Carrier tracks, the receiving road is responsible for processing the inbound clearance request to the Clearance Bureau. The movement cannot be accepted at interchange until the clearance is approved by the Clearance Bureau.

All clearance related correspondence should be channeled through the commercial@jag-transport.com organizational mailbox to ensure proper handling by those assigned responsibility for this function.

GENERAL RULES TARIFF 9000

approved by the Office of Corporate Development/Engineering:
